Western literature has become more influential in Africa since the independence of many of that continent's countries in the early 1960s. In particular, Greek tragedy has grown as a model and inspiration for African theatre artists. This work begins with a discussion of the affinity that modern day African playwrights have for ancient Greek tragedy and the factors that determine their choice of classical texts and topics. The study concentrates on how African playwrights have made outstanding contributions to the field, an important contribution that is impressive and valuable, stimulating and accessibly written.
