0 of 0 review helpful Good Story Poor Editing By M A Finley This story line was good There are so many who suffered through childhood molestation as this main character and this book will speak to them I do however think the sex scenes were too detailed at the beginning of the book She was still a child being molested so that was too much information The ending was too abrupt and lack of editing took from the story Marissa Ruiz aka Honey takes you on a journey through her tumultuous life From being molested by her mother & many men to her troubled friendship with her so called best friend Finally her life seems to be coming together and she meets a new man or is it just an illusion Will Marissa's life finally get on the right path Sit back and let Marissa take you on a journey filled with ups and downs
